Subject: FW: Potentially Responsive Documents for FOIA # EPA-R6-2013-006056 WEST FERTILIZER COMPANY EXPLOSION / WEST, TEXAS / SSID # A6GY

Good Afternoon Ms. Webster,

This is a follow-up to the email we sent you earlier. We would like to schedule a time to retrieve any possibly responsive emails or documents that you may have for the West Fertilizer Company Explosion FOIAs.

Please let us know when would be a good time for someone to retrieve your documents.

Thanks,
Sharon Martin

Site Team,

You have received this email because you have been identified on the Site Responsibilities List in CERCLIS. **If this request does not pertain to your branch, please consider this email for information purposes only.**

Please respond within two (2) workdays, advising whether you are the Office of Primary Responsibility (OPR), or Office of Corollary Responsibility (OCR). Additionally, please advise us whether or not you have responsive information, including materials not filed into SEMS, for this request. When replying to emails with your responses, please reply to all.

Negative replies are required.

Thanks in advance for your support.

Subject: INITIAL RESEARCH: FOIA # EPA-R6-2013-006056 / EPA RESPONSE TO WEST FERTILIZER COMPANY EXPLOSION / WEST, TEXAS / SSID # A6GY

The Region 6 Superfund Division has been assigned FOIA request # EPA-R6-2013-006056. This request is for information related to the explosion of the West Fertilizer Company plant on April 17, 2013, located in West, Texas.

The Requester is specifically seeking access to and copies of communications, records, documents, or other information pertaining to EPA's response to the explosion.

You have received this email because you have been identified on the Site Responsibilities List in CERCLIS. **If this request does not pertain to your branch, please consider this email for information purposes only.**

Toeroek has completed the initial research for this request and [did](#) locate potentially responsive information. We searched CERCLIS, Versatile, Envirofacts, SEMS-DMS and the OSC/NRC websites. Information was located on the OSC website. Please let us know if these documents need to be removed and processed from the website. In addition, Toeroek is currently processing documents retrieved from Pam Phillips and Carl Edlund. If potentially responsive documents relating to this FOIA request have been located after these documents have been processed, you will be notified, and a metadata extraction of the documents will be provided. A fee waiver and expedited processing has been requested, and we are waiting for a determination. This [Multi Division](#) request is due on June 4, 2013. If you have any questions regarding the research, please let me know.

When replying to emails with your response, please reply to all. Thank you.
